

# DNB RAP ARTIST WITH MESSAGE

RAPPER WITH HEART AND BASS

# BE WHY. CREATE.

**bWy (pronounced "be why") is a genre-fluid artist and trained yoga teacher, making music at the intersection of hip-hop, DnB, and spiritual awakening.**

**Where most artists pick a lane, bWy occupies a tension: the rebellious spirit of hip-hop colliding with a genuine seeker's depth. Dark themes, positive outlook. Raw bars, conscious intention. Street energy, temple stillness. The result doesn't sound like anything else – because nothing else is.**

**With a catalogue of 250+ original tracks, bilingual performances in English and German, and stage experience spanning club nights, festivals, and private retreats, bWy brings a live experience built on intentional energy – not just entertainment.**
